

Ascot Motor

We provide commercial motor fleet insurance for all types of occupations of varying sizes throughout the UK and Ireland. This line of business is underwritten via Direct Commercial Ltd. who is a specialist in this sector.

Our philosophy is to provide an excellent service, dealing exclusively via our network of brokers who are located throughout the UK and Ireland. We offer full transparency in our pricing structure by allocating a specific rate to each vehicle based upon size and value. All of our documentation is kept as simple as possible – just a single page proposal form to complete and one all encompassing policy document which is issued within 24 hours of confirmation of order. For specified certificate policies we will also provide free updates to the motor insurers database on our clients behalf.

Ascot Motor Contacts

Please contact one of our underwriters for more information on Ascot's motor products and services.
