

# Ascot Fac

Ascot fac offers our clients the outstanding combination of the capacity and security of a leading Lloyd's syndicate with local expertise and a deep understanding of the North American market. Based in Chicago and Hartford, we are perfectly positioned in the heart of our client's business to quickly and effectively address their needs.

Operating for and on behalf of Syndicate 1414 at Lloyd's, which is managed by Ascot Underwriting Ltd., we offer North American customers property reinsurance products for risks that traditionally have been placed with the domestic reinsurance markets. Our innovative products can be accessed through a reinsurance intermediary, and we will analyze exposure at any level of attachment to structure a product that fulfils their reinsurance needs.

## Ascot's Fac Team

Ascot's fac team has over 50 years combined property reinsurance underwriting experience in the domestic US & Canadian markets. Our strength is centered upon our extensive expertise and longstanding partnerships with our clients and brokers in North America.

We provide primarily property facultative capacity on an individual risk basis or via automatic products, offering products that support a broad range of business classes including (but not limited to):

- Non-proportional / excess-of-loss
- Real estate, manufacturing, retail, habitational, municipalities, inland marine, builders risks, boiler & machinery
- Substantial fire capacity lines (up to \$50M)
- Lead line capacity
- Catastrophe coverage including terrorism
